Ms. Marlene H. Dortch, Secretary  
Federal Communications Commission  
445 12th Street SW  
Washington, DC 20554

Subject: Regarding the LightSquared Technical Working Group  
Report, IB Docket No. 11-109

Dear Ms. Dortch:

I recently learned about a company called LightSquared. I learned that they plan to invest \$25 billion to build a new broadband wireless network. This is great news especially with the increased use of smart phones and the concerns that many experts have about our current wireless system's ability to accommodate this level of use. I understand that the GPS industry has expressed concerns about LightSquared's network interfering with GPS receivers and was relieved to learn that LightSquared has altered its launch plans to address 99% of these issues. Therefore, I write today to urge the FCC to allow LightSquared to move forward with these plans.

Sincerely,

A handwritten signature in black ink that reads "Veronica De La O". The signature is written in a cursive, flowing style.
